

SUPIPI AMARAJEEVA

Engineering Graduate | Seeking a 12-month Apprenticeship | Data & Digital Projects
supipiamarajeeva@gmail.com +33 7 49 14 96 78 Paris, France LinkedIn GitHub

Summary

Engineering graduate and incoming MSc International Marketing student at ISC Paris, seeking a 12-month apprenticeship from February 2027. Experience in client-facing digital projects, data preparation and workflow automation, with practical skills in Power BI, SQL and full-stack development.

PROFESSIONAL EXPERIENCE

Rivière Yuan EdTech — Lyon, France
Full-Stack Developer and Generative AI Intern — June 2025 – October 2025

- Migrated, cleaned and validated WordPress data for a bilingual platform redesign.
- Worked directly with clients to translate needs into prioritised product features.
- Built a shared-link enrolment workflow, reducing selected administrative tasks by 85%.
- Developed an AI-assisted article-analysis workflow, reducing manual review time by 60%.
- Implemented cursor-based pagination, reducing transferred data per request by 70%.

Art & Science Node — Berlin, Germany
Erasmus Technical Intern, Web Development — July 2024 – September 2024

- Designed and launched a European project website in eight weeks using HTML, CSS, JavaScript and WordPress.
- Integrated 2 interactive Three.js models and improved loading performance.
- Mentored two junior interns in WordPress and web development fundamentals.
